Home: Dodangoda, 12020 Kalutara (Sri Lanka)

ABOUT ME

Results-driven AI/ML Engineer with a strong foundation in software engineering and hands-on experience in designing, training, and deploying intelligent systems. Specialized in building end-to-end machine learning pipelines, computer vision solutions, and predictive models to solve complex, real-world problems. A collaborative team player adept at working across cross-functional teams and international client environments, bringing strong critical thinking, clear communication, and an agile mindset to translate business requirements into scalable, high-quality, production-ready AI solutions.

EDUCATION AND TRAINING

BSc (Hons) in Computer Science

University of Westminster, London [31 Aug 2020 – 31 May 2024]

City: London | **Country:** United Kingdom | **Website:** https://www.westminster.ac.uk | **Field(s) of study:** Information and Communication Technologies | **Final grade:** 2:1 | **Level in EQF:** EQF level 6

Diploma in Comprehensive Master Java Developer

IJSE - Institute of Software Engineering [31 Aug 2019 – 30 Jun 2020]

City: Panadura | **Country:** Sri Lanka | **Field(s) of study:** Information and Communication Technologies | **Level in EQF:** EQF level 5

G.C.E Advance Level Examination

Holy Cross College [30 Apr 2017 – 31 Jul 2019]

City: Kaluthara | **Country:** Sri Lanka | **Field(s) of study:** Natural sciences, mathematics and statistics: • Physical sciences not further defined | **Level in EQF:** EQF level 4

WORK EXPERIENCE

Geodd (Pvt) Ltd – Colombo, Sri Lanka

AI/ML Engineer

[1 Aug 2024 – Current]

- Designing, training, and deploying machine learning and deep learning models tailored for client and platform solutions.
- Developing end-to-end AI pipelines, feature engineering workflows, and integrating model APIs into existing applications.
- Collaborating with cross-functional teams to ensure robust model performance, optimization, and maintainability in production.

The Family Clinic (Pvt) Ltd – Colombo, Sri Lanka

Software Engineer

[31 May 2022 – 30 Jun 2023]

- Developed the Family Clinic mobile application using MEAN stack
- Handling both frontend and backend development for the application
- Acquired expertise in REST APIs and non-relational databases while working on the project
- Gaining insights into the entire project lifecycle and refining communication skills through interactions with international clients.

SKILLS

Technical Skills

artificial neural networks / algorithms / deep learning / computer programming / Python (computer programming) / MLOps / Artificial Intelligence / Machine Learning / System Integration / GPU Computing & Optimization / Java (computer programming) / software components libraries / JavaScript Framework / mobile device software frameworks / make time-critical decisions / approach challenges positively

PROJECTS

YellowB Created a Mobile Application with the integration of Deep Learning techniques that detect and identify plant leaf diseases and to interpret model's predictions with suggested control measures.

- Technologies used: **Python, TensorFlow, Flask, Flutter, Git**

SoilPediaLK Created a Mobile Application using Image Processing techniques to identify Soil types and recommend plants and fertilizers according to the identified soil.

- Technologies used: **Python, TensorFlow, Django, Flutter, Firebase, Git**

S&P Stocks Market Price Prediction Developed Machine Learning models to compare and evaluate AI techniques. This includes Random Forest, Logistic Regression and SVM models.

- Technologies used: **Python, Keras, TensorFlow, scikit-learn**

Formula1 Championship Manager Developed a desktop application to manage Formula One races, showcasing understanding of OOP principles.

- Technologies used: **Java, Java Swing, Object-Oriented-Programming**

LANGUAGE SKILLS

Mother tongue(s): Sinhala

Other language(s):

English

LISTENING B2 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION B1 **SPOKEN INTERACTION** B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

HOBBIES AND INTERESTS

Music *Playing the guitar and sing. (Performed at Pullman Maldives Maamutaa as a singer-guitarist)*

Cricket *Served as the captain of the school's cricket team (u13-19), demonstrating leadership, teamwork and a commitment to physical fitness.*

Workout & Weight Lifting *Committed to structured active lifestyle tracking, reflecting a disciplined and goal-oriented approach to personal development.*

Technology *Passionate about staying updated with the latest trends in technology and software development, regularly attending workshops and tech meetups.*

Volunteering *Engaged in community service projects through the LEO Club, contributing to social welfare and personal development initiatives.*

Traveling *Enjoy exploring new cultures and destinations, enriching my understanding of diverse perspectives and inspiring creativity in my work.*

COMMUNICATION AND INTERPERSONAL SKILLS

Effective Verbal Communication

Developed through collaboration with clients and team members during my internship, where I articulated technical solutions to non-technical stakeholders, ensuring mutual understanding.

Team Collaboration

Strengthened through my role as captain of the school cricket team, leading discussions, motivating team members, and fostering a collaborative environment both on and off the field.

Written Communication

Developed through creating project documentation and reports, ensuring clarity and precision in conveying technical information.

Active Listening

Enhanced during the internship, where understanding client needs was crucial to delivering tailored solutions and resolving issues efficiently.

Presentation Skills

Acquired through academic projects and presentations during my studies, where I effectively communicated complex concepts and project outcomes to diverse audiences.

ORGANIZATIONAL SKILLS

Technical Problem-Solving

Skilled in identifying and resolving software issues, with a focus on delivering effective solutions in a timely manner.

Agile Methodologies

Familiar with Agile practices, participating in iterative development cycles that prioritize flexibility and responsiveness to feedback

MANAGEMENT AND LEADERSHIP SKILLS

Project Management

Acquired during my tenure at The Family Clinic (Pvt) Ltd *, where I coordinated web application development projects, managing timelines and ensuring deliverables met quality standards.*

Team Leadership

Developed as captain of the school cricket team, where I was responsible for organizing practice sessions, strategizing game plans, and leading team discussions to enhance performance.

Time Management

Cultivated through balancing academic responsibilities with project work and extracurricular activities, effectively prioritizing tasks to meet deadlines and maintain high-quality output.
